meervoude

plurals

'n Meervoud is 'n woord wat verwys na meer as een persoon, plek, dier, ding of idee.

A plural noun names more than one person, place, animal, thing or idea.

Baie woorde se meervoude word gevorm deur net 'n
-s of 'n -e aan te las.

Many singular word plurals are formed by just adding an -s or a -e.

Words with the vowels a, e, i, o, u in the middle and a consonant at the end, the consonant doubles in the plural and it gets an -e.
